Intwaza Belyse
Software developer

Belyse is a software developer who enjoys solving Africa's challenging problems using technology. Her ability to solve problems critically has led her to create a solution that connects job seekers to recruiters, to address the persistent youth unemployment crisis in the African market.

High School
Group Scolaire Notre Dame de Lourde Byimana

02/2014 - 11/2019   *Rwanda, Southern Province*

REFEREES

Marie Githinji
Executive director and Co_founder at AkiraChix

Contact: *Marie@akirachix.com*

Phionah Ayinembazi
Mobile Developer at The Golazo Project

Contact: *phionahayinembabazi@gmail.com*

John Owuor
Software Engineer at Twiga Foods

Contact: *owuor91@gmail.com*

TECHNICAL SKILLS

Ability to use Django to handle models, URLs, views, send data to the database and solve problems using OOP

Able to consume API, Implementing MVVM architecture, sending data to firebase and use RecycleView with card view to create user_friendly mobile applications

Able to use DOM manipulation for interactive user interface

Ability to use Node Js to build fast and scalable web applications

Ability to create wire_frames and mockups for mobile and web applications using Figma and Adobe illustrator

Ability to create responsive web applications using Bootstrap and HTML5

PERSONAL PROJECTS

Kazi ni Kazi app
- An app that connects job seekers to recruiters. Github Link ⧉

Pizza app
- Pizza Ordering app python Github Link ⧉

Contact app
- An Android app that display list of contacts you have in your phone built using Kotlin - Github link ⧉

School system
- School system that is built on Django and enables students, trainers and staff, to submit their details. They can also be able to access available courses and a calendar of events. Github Link ⧉

Solio Farm
- Designed an app for ordering fruits and vegetables. Figma link ⧉

ACHIEVEMENTS

Participated in the VGHC EMEA 2021 event organised by AnitaB.org

Participated and submitted a video that won a feature in the global IFC exchange 2021

Accepted for Google developer scholarship that she will get to grow her skills in Android
